

A Message from Steven Marshall MP

On behalf of the South Australian Liberal Party, I would like to commend the ASSP Gallery's continued efforts in engaging all South Australians in Aboriginal culture and traditions through art.

It is a fantastic thing for the Aboriginal Community in South Australia that people are standing up, representing their culture, and willing to share it with others. Janet Milera champions the rich culture that we have here in South Australia through her connection to the land and her ancestors. By having a public exhibition, she is encouraging all South Australians to come together and celebrate the great impact the Aboriginal community has had on our wider community.

Aboriginal culture and history has played a pivotal role in the fabric of our great state and I encourage all South Australians to enjoy this exhibition and take away a greater understanding and appreciation.

I would like to congratulate, and thank, the organisers, The Artist, and those leaders from our community for their efforts in making this event a reality for all to enjoy.

Best Wishes for the exhibition.

Steven Marshall MP

State Liberal Leader
